

Cave Digger is now available on Xbox, Nintendo Switch version coming on December

- 4.12.2020 - Oulu, Finland -

Finnish VR game publisher VRKiwi announced the release of Cave Digger on Xbox and Switch. Originally developed as a PC VR game, the alternative western adventure is enjoyable through virtually any gaming device nowadays (sans mobile).

The game has got praise for its combination of mining exploration, quirky encounters, and world theme (western, sci-fi, steampunk-ish), with some dark but lighthearted humor bits. The game takes place in a seemingly abandoned western town in a region referred to as The Frontier. The town has an old mining network. Excavate precious things to upgrade your gear and progress deeper to the mines. What secrets you will find depends on your decisions. Many questions will arise along the way but one thing is constant, there's something mysterious about The Frontier mines.

The game is now available on Xbox, both the new series Xboxes and older Xbox One series. Cave Digger's Nintendo Switch version will be released on the 14th of December in Europe and the US release will be on the 28th of December.

Last October VRKiwi revealed that the game will have a sequel and it is going to be the largest VR game production from Finland to date. This Holiday Season might be the best time yet to jump into cave digging miner shoes if one hasn't already.

Cave Digger has a Discord channel on discord.gg/cavedigger, which will be also for people interested in the upcoming sequel.

About Cave Digger

Cave Digger is a single-player mining adventure game, which takes place in the small town of an alternative western universe. Collect mining loot to upgrade your tools to explore the town and the depths of the mountain. What secrets might be held in the beautiful unspoiled land? Or, is it that unspoiled after all? The answers lie beneath the mountains. The game is available for VR platforms of PC, PlayStation VR, Oculus Quest, Pico Neo 2 and NOLO, and flat screens of PC, PlayStation, Xbox and Switch.

About VRKiwi

VRKiwi is the game publisher brand of MeKiwi, a full-stack digital agency based in Oulu, Finland. Their first game Cave Digger was released on Steam back in 2018, which has since come to multiple VR and flat-screen platforms. Their second game ArtPulse came in 2020, and there are more coming through their publishing pipeline, namely Crystal Raiders VR, Cave Digger 2: Dig Harder (VR), and more. VRKiwi website is vrkiwi.org, and MeKiwi mekiwi.org.
